

### Use of Charging Stations

Hall	Sections	Seat Capacity per Section	Charging Station Per Section
MPSH 1	<b>MPSH 1A</b>	405	54
	<b>MPSH 1B</b>	375	50
MPSH 2	<b>MPSH 2A</b>	442	52
	<b>MPSH 2B</b>	425	50
MPSH 5	<b>MPSH 5</b>	448	52

The number of charging stations are roughly 10% of the total number of seats in each section.

- a.** Course Coordinators should remind students to check that their laptops are fully charged.
- b.** Students should only use the charging stations for contingency purpose only. (e.g. low battery, laptop requires charger plugged in to operate)
- c.** In the event where all the charging stations are fully taken, the student who has charged sufficient power will return to their original designated seat.
- d.** The contingency charging stations in each section are numbered CS1, CS2, CS3...CS5. This is to facilitate contact tracing for students who are assigned seats for the duration of the assessment.
- e.** Crossing of sections by students to use the charging station is prohibited.
